TPA Airline Profiles – Review Draft

One profile per airline, laid out like the wireframe: **Fees at a glance** (the airline page card, lowest economy fare) and **Cabin experience** (the flight card panel: carry-on, food & drinks, entertainment pills, legroom, cool thing). Sources are your fees doc and the AeroLOPA cabin sheet (Avelo is from SeatMaps.com). Check each airline, then tell me what to change before I commit anything.

Not covered by either source

- Power outlets (only Frontier is known: none), food & drinks (only Frontier is known), passenger reviews, descriptions and nonstop route counts.
- Wi-Fi prices. AeroLOPA doesn't publish them.
- Legroom is seat pitch in inches, standard economy first. Extra-legroom products are named per airline. Where an airline flies several layouts I show the range, and the cabin sheet has the per-layout rows.
